

COMPOUND JM-590

TECHNICAL DATA SHEET

DESCRIPTION:

COMPOUND JM-590 is a concentrated liquid of ideal composition for exterior washing of cars, trucks, buses and similar transportation equipment. It is instantly soluble in water, reducing mixing time necessary in preparation of wash water. **COMPOUND JM-590** is effective even in hard water. This product rinses completely, leaving the surface with no filming, hazing, streaking or spotting. Low concentrations are recommended for usage to give outstanding results and to be highly economical.

PROPERTIES:

Appearance:	Clear, pink-red liquid with a pleasant odor.
Specific Gravity:	1.15
pH (100%):	9.5 – 9.7
pH (1% by Volume):	9.4 – 9.6
Foam:	Moderate
Metal Safety:	Safe on ferrous, aluminum, zinc and their alloys.

APPLICATION:

For most exterior cleaning, dilute **COMPOUND JM-590** to 1.0% by volume with cold to warm water (0.5 gallons of **COMPOUND JM-590** per 50 gallons of water). For manual operations, scrub with a soft, scratch-less brush. For automatic spray systems, **COMPOUND JM-590** can be readily dispensed directly into the wash water or may be prediluted to make a stock solution. Follow application of **COMPOUND JM-590** with a cold-water rinse. For very dirty surfaces and or when extremely heavy suds are desired, use **COMPOUND JM-590** at 1.5 to 2.0% by volume.

PRODUCT CAUTIONS:

Warning! May cause skin or eye irritation. May be harmful if swallowed. Contains sodium dodecylbenzene sulfonate.

EMERGENCY FIRST AID:

EYES & SKIN: Immediately flush with large quantities of cool water continuously for at least 15 minutes. Call a physician. Remove contaminated clothing and shoes. Do not put contaminated clothing and shoes back on. Wash clothing and shoes thoroughly in soap and water; rinse repeatedly in clean water and dry before reuse.

INGESTION: Give water. Never give anything by mouth to an unconscious person. Call a physician.

If use is contemplated for purposes other than, or by methods different from those specifically recommended herein, please contact the manufacturer for advice.

FOR INDUSTRIAL USE ONLY – KEEP OUT OF THE REACH OF CHILDREN.
