

BL-25

TECHNICAL DATA SHEET

DESCRIPTION:

BL-25 is a concentrated bleach additive in a convenient dry form. **BL-25** can be used as any chlorine bleach in laundry operations or in other operations where chlorine oxidants are used. It has superior shelf-life properties compared to liquid bleaches; loss of available chlorine during storage is negligible for up to six months.

PROPERTIES:

Appearance:	White powder with chlorine odor.
pH (1% by Volume):	6.4 – 6.5
U.S.D.A. Status:	May be used on fabric which contacts meat or poultry products, directly or indirectly, provided that the fabric is thoroughly rinsed with potable water at the end of the laundering operation. Category = B1

APPLICATION:

Use as you would any concentrated form of chlorine bleach. In laundering operations, temperatures should normally not exceed 160°F. to prevent fabric degradation.

When used for shroud cleaning, **BL-25** is added at 0.5 to 1.0 pounds per 200 shrouds in the bleach cycle.

PRODUCT CAUTIONS:

Danger! Causes burns to skin, eyes and alimentary canal. Harmful if swallowed. Contains sodium metasilicate, a strong alkaline material, and sodium dichloroisocyanurate. During use, wear goggles and neoprene gloves.

EMERGENCY FIRST AID:

EYES & SKIN: Immediately flush with large quantities of cool water continuously for at least 15 minutes. Call a physician. Remove contaminated clothing and shoes. Do not put contaminated clothing and shoes back on. Wash clothing and shoes thoroughly in soap and water; rinse repeatedly in clean water and dry before reuse.

INGESTION: Do not induce vomiting. Give water. Never give anything by mouth to an unconscious person. Call a physician.

**DO NOT MIX BL-25 WITH ACIDS!
THIS WILL FORM TOXIC CHLORINE GAS.**

If use is contemplated for purposes other than, or by methods different from those specifically recommended herein, please contact the manufacturer for advice.

FOR INDUSTRIAL USE ONLY – KEEP OUT OF THE REACH OF CHILDREN.
